

WHY OSNABRÜCK?

Experience happiness! A nationwide survey found out that the happiest people in Germany live in Osnabrück.

170,000 people – among them 25,000 students – cannot be wrong. Come and find out!

The old town of the city is particularly well preserved, with narrow winding alleys and old half-timbered houses. Find yourself back in the 17 century when walking through the medieval city centre.

Enjoy Osnabrück's music festivals, theatres, cinemas, bars, and restaurants. In summer time, let Osnabrück entertain you with a range of open air events and festivals.

130 nationalities and many religions are at home in Osnabrück. Experience diversity!

HOW TO APPLY

Before you submit your online registration, we expect your nomination from your home university by e-mail. You will then receive a link to the online registration form. The online registration system will guide you automatically. You will receive a decision regarding your application by 10 December.

YOUR BUDDY WILL ASSIST YOU

In Germany we say: "Every beginning is difficult". A buddy will assist you in finding your way around Osnabrück and the university. A buddy is a student in a higher semester. You will receive name and e-mail address of your buddy at home, before your arrival in Osnabrück. The buddy will pick you up from the train station, will help you move into your residence and will show you the city, the campus and the university. So you will have a buddy in Osnabrück right from the start. And who knows? Perhaps it is the beginning of a good friendship.

STUDY „QUALITY ENGINEERING“!

Join this 30 ECTS credits course and learn how to produce high quality products and to assure quality in maintenance!

**FACULTY OF ENGINEERING AND
COMPUTER SCIENCE**

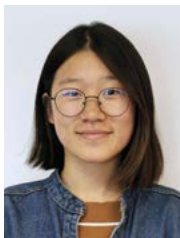

QUALITY ENGINEERING made in Germany

Germany is one of the major export nations worldwide. Cars, machine tools, medical and environmental products, complex process engineering systems, innovative IT solutions: „Made in Germany“ stands for high quality all over the world. Well-trained engineers – highly qualified experts – stand behind all these products.

If you are an engineering student, take your chance and study Quality Engineering at Osnabrück University of Applied Sciences, in Germany's „City of Peace“!

In this course at a Master's degree level students will get the basic knowledge about „how to produce high quality products and to assure quality in maintenance“.

The course includes 30 ECTS credits. You will get a transcript of records listing all modules you have passed. If you attend all modules and are successful in all examinations, you will receive an additional special course certificate.

“I got a chance to do an exchange semester at the Osnabrück UAS, because my University is a partner university. I like the blue sky and fresh air in Germany. Also the local people, they are so friendly! Osnabrück is a really quite and beautiful city. I love the Osnabrück UAS for its cleanliness and tidiness and for creative and energetic students.

I will recommend the Quality Engineering course to my fellow students, because I could meet many kind friends from other countries and of course, we had a really great time!“

Yuanyuan, China

Module	Examination Method	ECTS credits
Measurement and Quality	Written Exam and Lab Experiments	5
Imaging Quality Assurance	Assignment and Lab Experiments	5
Quality Management	Presentation and Assignment	5
Quality Assurance in Aircraft Maintenance	Written Exam and Compulsary Placement	5
International Negotiation and Communication Skills	Presentation and Assignment	5
German as Foreign Language	Presentation and Assignment	5

“A friend of mine, who had studied at the Osnabrück UAS before, recommended the Quality Engineering course to me. I like the German language and culture. Osnabrück is a really beautiful city and there is a nice student life here. The Osnabrück UAS is a very good place to study with its safe and modern campus.

All in all, I enjoyed studying and living here very much and would recommend the Quality Engineering course to international students, because it is a valuable experience.“

Cédric, France

COURSE DETAILS

Location	Osnabrück UAS Faculty of Engineering and Computer Science Albrechtstraße 30 D-49076 Osnabrück, Germany
Date	Starting regularly on 1 March for one semester (until July)
Prerequisite	At least 180 ECTS (3 academic years) in any engineering field
Semester Fees	Reduced semester fees for visiting students from partner universities
Language	English
Application Deadline	1 November of previous year

“My exchange semester at the Osnabrück UAS was great from the first till the last day. My buddy picked me up, answered all the questions I had and helped me to feel comfortable in Osnabrück and on the campus. I am in love with Osnabrück! I enjoyed living here, because I like old towns very much.

I got a lot of knowledge in the Quality Engineering course and could practice the German language, as well. That is why I would recommend this course to everyone!“

Aleksandra, Russia
